L. U. Morgan, of Temples, brought to the Telegraph office an ear of corn around the lower half of which are seven small ears, making it eight in all. Merely a Suggestion

Take it for what you think it is worth. Good judges of the economic condittion of the country predict a time of lower prices for the very near future. In view of this outlook this bank suggests to its merchant customers and friends the advisability of pursuing a conservative course. Don't be niggardly in your operations. Buy all the goods that your custom will consume readily, but be sure that manufacturers and jobbers do not OVER-LOAD you with goods at high prices that may have to be sold on a declining market.

A Storekeeper Says:

A lady came into my store lately and said:

"I have been using a New Perfection Oil Cook-Stove all winter in my apartment. I want one now for my summer home. I think these oil stoves are wonderful. If only women comfort they are, they would all have one. I spoke about my stove to a lot of my friends, and they were aston-

that it heated aroom just like any of stove. I told them of my experies and one after another they got one, w, not one of them would for five times its cost."

It has a Cabinet Top with a shelf for keeping plates and food het. The nickel finish, with the bright blue of the chimneys, makes the stove orna and attractive. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.
